**Endura® Goatskin Driver Gloves**

Goatskin is often referred to as nature’s strongest leather. It has very high tensile strength and abrasion-resistant properties, but has excellent softness and is lightweight. Because of this high strength-to-weight ratio our Endura® Goatskin gloves are much tougher and more durable than their suppleness leads you to think.

### Teammate™, Winter Split-Leather Fully Lined Fitter Gloves

The winter version of Superior’s Teammate™ split-fitter gloves lets you enjoy the warmth of a heavier glove - without the bulkiness. Heavy cotton-twill backs with elastic for snug fit, and 2.5” rubberized hand-top cuff for wrist protection and easy on and off. Available with 3M Thinsulate™ offering greater warmth without the bulk.

- Black selected split Leather
- Fully Thinsulate™ lined
- Safety cuff

**Part #** | **Size**
--- | ---
SUG66BFTL | Men’s Large

### Guncut Split Fitter Gloves

Teammate split fitters stand up to heavy duty and rugged wear. Good protection from cuts, scrapes and abrasions. The guncut pattern removes most seams out of the wear area and around to the back of the hand. All styles have full leather palms and index fingers, plus reinforced leather finger tips and knuckle straps for extra protection. Cotton lined palms for comfort.

- Standard quality
- Patch palm
- Safety cuff

**Part #** | **Size**
--- | ---
SUG66Q | Men’s Large

### Sidekick® Premium Sidesplit Fitter Gloves Lined with Dyneema®

Gunn-cut pattern glove combines 1.4 mm premium side-split leather, selected for its durability, with 9 oz. cotton twill to create a glove that stands up to the toughest jobs, and features a 10-gauge, seamless string-knit Dyneema® liner for significantly better cut protection. Super-strong Kevlar® thread is used for seam integrity. Elasticized at back of wrist for snug fit.

- Premium Sidekick Fitters Glove
- Fully Lined with Dyneema®
- ASTM Cut Level 2

**Part #** | **Size**
--- | ---
SUG69BDYFL | Men’s Large

### Dexterity NT Nitrile-Dipped Gloves

The tough nitrile-dipped coating on DEXTERITY NT gloves gives superior abrasion, cut and puncture resistance. The combination of the unique 100% cotton seamless-knit shell and the ergonomically designed curved hand and finger shape gives this glove unsurpassed comfort and dexterity.

- Nitrile Dipped, Seamless Cotton Knit
- 15 Gauge Shell, Knit with THT
- CFIA Approved

**Part #** | **Size**
--- | ---
SUGS15NT | 6-11

### CrewMate™ Double Palm Fitter Gloves

For the toughest, most abrasive jobs, have a pair of our best-selling Crewmate™ fitters gloves on your side. With an extra layer of heavyweight Tri-tan leather on the palm, thumb and index finger, you can easily handle the unexpected. Back of gloves are cotton with elastic at wrists. Rubberized safety cuffs complete the package.

- Outside double palm
- rubberized safety cuff

**Part #** | **Size**

Superior-Touch™ Extreme
Cut-Resistant Foamed Nitrile
Gloves made with Dyneema®

When high-tech fibres are added to composite yarns, the results are impressive. Fibreglass on its own is brittle, and while it scores well in some aspects of cut-resistance, does not in itself stand up well to direct cut. However, when combined with Dyneema®, brittleness is no longer an issue. The air bubbles in the nitrile palm-coating work to increase grip in oily conditions by displacing the oil on the surface of materials like metal and glass.
- Foamed Nitrile Palm Coat on a 13 Guage Shell
- Made from a blend of Nylon, Fibreglass and Dyneema®

Black Widow Grip, Micropore
Kevlar® Palm-Coated

Our design utilizes the latest developments in ‘micropore’ technology by infusing the nitrile coating with millions of tiny pores. In simple terms, these pores displace oils and liquids when pressed against smooth surfaces, and create a kind of suction that further increases grip. Best of all, the pores do not allow oil to saturate the nitrile coating as with a foamed-nitrile glove, keeping hands dry.
- Dexterity™Series
- 13 Gauge Kevlar® Glove with Micropore Nitrile Grip Palm Coating

## Emerald CX Kevlar®/Stainless Steel Composite Glove with U Coating

Emerald CX gloves are knit with an engineered blend of Kevlar® and stainless steel, because two super-strong materials are definitely better than one! They reach an impressive CE Cut-level 5/ASTM Level 4. And, the comfort and dexterity of these gloves is surprising, considering the fact that you’re wearing a quarter mile of steel on your hands.

## Precision Arc™ Deerskin TIG Welders Gloves

These deluxe gunn-cut welding gloves combine exceptional dexterity with protection and durability. Deerskin palms provide a fine sense of touch while backs are one piece split cowhide. Gloves are sewn throughout using Kevlar® thread, providing seam strength and spark resistance. Cowhide 5 inch gauntlet cuffs protect wrists.

## Precision Arc™ Deerskin TIG Welders Gloves

TIG welding demands a fine sense of touch, and our PrecisionArc™ deerskin welding gloves deliver. Available in four styles, the 1.1 mil.-thick, split- or full-grain leather gloves come lined or unlined. All models come with 4" cowhide gauntlet cuffs, Kevlar® sewing throughout, and strapped thumbs for extended life of the glove.

- Split Deerskin TIG Glove
- 1.1mm Thick
- Kevlar® Sewn

Keep Kleen® Nitrile Gloves

Keep Kleen® 100% nitrile gloves deliver superior snag and puncture resistance, plus excellent flexibility and protection from a broad range of chemicals. The textured surface gives an enhanced wet/dry grip without compromising tactile sensitivity. Contains no natural rubber proteins that may cause allergies. Specifications and physical properties comply with ASTM D3578-95, EN455-1, EN455-2. Our Keep Kleen® Nitrile gloves are a Class 2 Medical Grade, and are Agriculture Canada (CFIA) Approved for Food Handling.

Keep Kleen® Vinyl Gloves

Keep Kleen® disposable vinyl gloves offer dexterity and touch sensitivity. Our RDV vinyl gloves are available in two thicknesses, 3 mil for more touch sensitivity, and a 5 mil for higher resistance to tearing. Ambidextrous pattern. Lightly powdered for easy on and off. We also offer a new extrasoft and stretchy premium vinyl. These gloves have the feel of a latex glove. All of our Keep Kleen® Vinyl gloves are Agriculture Canada approved (CFIA) for food handling.

Protective Dyneema® Sleeves

Our Protective Dyneema® sleeves provide unparalleled cut resistance, an excellent choice for handling sharp glass or steel, in situations where heat or spark are not involved. (Dyneema® has a low melt point). They are plated with cotton on the inside for comfort and absorption. The plating also provides more structure so sleeves don’t fall down the arm.

**SAFETY EQUIPMENT**

**PROTECTIVE CLOTHING**

491 Frost Free

- Double dipped PVC for durability and extra protection
- Extra warm heavy acrylic lining
- Resin finish for excellent wet/dry grip
- Developed for extreme cold conditions

**Part #** WAT491  **Size** L-XL  **Description** 12” Gauntlet

320l Red Hots

- Textured, black rubber coated palm for flexibility and excellent grip
- Breathable seamless red knit
- Napped thermal lining for added warmth

**Part #** WAT320l  **Size** M-XL

353 Dynamo!

- Foam nitrile coated palm provides protection from abrasion and punctures, superior wet grip
- Aramid fiber shell with level 3 cut resistance
- Ergonomically formed to minimize hand fatigue
- Snug and secure fit, seamless knit wrist keeps out dirt and debris

**Part #** WAT353  **Size** S-XXL

320 Blue Chip

- Blue latex coated palm provides protection from abrasion and punctures
- Ergonomically formed to minimize hand fatigue
- Snug and secure fit, seamless knit wrist keeps out dirt and debris

**Part #** WAT320  **Size** S-XL

390 Stealth

- Nitrile coating with textured sure-grip surface, excellent abrasion and puncture resistance
- Ergonomically designed breathable seamless knit helps to reduce hand fatigue
- Excellent for small parts handling and wiring operations

**Part #** WAT390  **Size** S-XL

**IMPACTO® Anti-vibration Mechanic Style Air Glove®**

Used with vibration power tools. Patented Air technology in the palm, thumb and fingers. Adjustable wrist tab with hook and loop closure. Synthetic Ultra Suede leather provides excellent wear and flexibility. Textured patches on the palm and finger tips ensure superior gripping. Mesh back allows hand ventilation.

- Individual air chambers ensure long wear
- Consistent protection where padded
- Durable urethane bladder construction
- Air bladder won’t bottom out
- Mechanic’s glove style designed for maximum comfort and dexterity
- Meets Anti-Vibration Standard ANSI

```

IMPG408 Sold per pair
```

**IMPACTO® Impact Glove with Wrist Support**

Industrial use, impact and pneumatic tools. Fingerless nylon glove with grain leather and impact absorbing Visco-Elastic polymer padding in the palm and between thumb and index finger. Detachable grain leather wrist support protects wrist from repetitive strain.

```
Part # Description Size
IMP704-20 Sold as eaches, left or right hand XS - XL
```

**IMPACTO® Mechanic’s Style Impact Glove**

```
Part # Description Size
IMPV408 Sold per pair
```

**IMPACTO® Metatarsal Protector**

Attaches to safety footwear. Extremely durable lightweight polycarbonate material. Protects the metatarsal area of the foot. Designed and tested to compliment steel cap footwear. The lip of the METGUARD sits on top of the steel cap at load point and is secured with existing laces or straps. It helps protect the workers' upper foot by deflecting and dispersing the impact of falling loads. Fits all safety shoes and boots with optional attachment straps to secure to non-lace up footwear and rubber boots.

```
Part # Description Size
IMPETGUARD™ Sold per pair
```

**IMPACTO® Anti-Impact Glove Liner**

Fingerless four way stretch polycotton glove liner has full VEP palm padding (wear under work glove). Visco-Elastic Polymer (VEP) pad absorbs impact and dissipates shock. Used for material handling, light assembly with pneumatic and electric hand tools.

The North Gen “FR” Coverall is made from a unique combination of nonwoven fabrics and meets with CE Type 5 & 6 protection which means that it is resistant to noxious dust, oil & chemical splashes and also anti-static to meet with EN1149-1. The North Gen “FR” Coverall is also new Flame Retardant to NFPA701 and EN533 Index 1. The fabric is breathable and therefore very comfortable to wear - even for long periods of time. The North Gen “FR” Coverall is ideal for a wide range of applications and has been designed to be both practical and comfortable with a 2-way zip, elastic waist and a generous cut.

ELEMENT FR®
3 Piece CSA Suit
Style # R85

The ELEMENT FR™ rainsuit provides exceptional value when you need a suit to protect you from wet and dirty environments. Packed with features, this hi-viz garment is sized to fit over bulky work garments allowing you to perform with less stress on you and the garment. Packed conveniently in one package, the jacket, pant and hood can be easily dispensed on large job sites, allowing for easier inventory control.

- Hi-Viz Orange 13 oz/yd² FR PVC/Polyester
- Oil resistant
- Good tear and snag resistance
- Extremely durable and comfortable
- Remains flexible in cold conditions
- Permanently welded seams
- Unique “Wideweld” cuff design to increase wear
- Generous styling fits over work clothes
- Recommended for “Momentary Protection from Open Flame”

JACKET
- Batwing sleeve design
- Features CSA Z96 striping package using 2” 3M™ Scotchlite™ silver & yellow reflective material
- Stand up collar with durable snaps to attach hood
- Concealed plastic snap front closure
- Inner storm flap
- Two snap adjustments at cuffs

HOOD
- Designed to easily fit over a hard hat
- Attaches to jacket with plastic snaps
- Detachable hood a safety feature should it become entangled while working
- Drawstring with cord locks for best fit. All 3 pieces sold as one suit.

401 Tornado Rainsuit/411 Tornado Fire Retardant Suit

This popular rainsuit is constructed from PVC/Polyester/PVC with a .35mm thickness, offering the user reliable quality and value. The jacket comes with storm flap, dome snaps, two patch pockets, cordsuroy collar, detachable hood with drawstrings, cape back and underarm vents, cuff take-up snaps, non-conductive fasteners, and ultrasonically reinforced welded seams. The pants feature non-conductive fasteners, fly front, adjustable suspenders, adjustable waist snaps, and ankle take-up snaps. Available in complete suit or separate jackets and pants in both hi-viz orange and yellow. The 401 Tornado is suitable for construction sites, farms, municipal workers, and most jobs in foul weather. Fire retardant suit is also available.

These high intensity traffic parkas increase the visibility of workers on any job site. The water repellent outer shell makes this an excellent parka for inclement weather and cold winters. The parkas are made of 100% polyester and have a inner black lining with diamond-shaped quilting. Material is 300 denier and the lining is 200 grams. Jacket features front storm flap with 5 snaps and a two-way zipper, set-in long sleeves with an inner knitted wrist storm cuff, 2 flap waist pockets, inside left and right chest pockets with velcro closures, one lower mobile phone pocket with velcro closure, and a hood that rolls into the collar and features a drawstring with plastic bell knob stopper. Parka also features 360° reflectability, 2 stripes down the chest, an X on the back, 2 bands around the waist and a reflective band around the arms. Ideal wear for construction workers, police and traffic authorities, municipal or government workers, security personnel, airport workers, or any job site that requires high visibility clothing. Available for custom embroidery. Packaged 10/Case.

The best of all worlds - enjoy a winter jacket with a zip-in reversible traffic vest. These high intensity traffic jackets increase the visibility of workers on any job site. The water repellent outer shell makes this an excellent choice for inclement weather and cold winters. Material is 250 grams (10 oz. per square yard) and the lining is 220 grams (8.8 oz. per square yard). The 100% polyester jacket with mesh lining features a front storm flap with 6 snaps and a one-way zipper, set-in long sleeves with a knitted storm cuff inside, inside left and right chest pockets with velcro closures, lower mobile phone pockets with velcro closures on both sides, and a roll-up hood with draw cord and plastic bell knob stopper. Jacket also features 360° reflectability, 2 stripes down the chest, an X on the back, 2 bands around the waist and a reflective band around the arms. Ideal wear for construction workers, police and traffic authorities, municipal or government workers, security personnel, airport workers, or any job site that requires high visibility clothing. Custom embroidery is available on upper left chest and neckline. Packaged 10/Case.
Winter Parkas

Our 100% cotton woven canvas parkas will keep you warm in winter. They are generously sized and have reinforced seam work to allow for long-term durability. They are lined with 100% black cotton flannel with polyester filling and the nylon quilted lining on the bottom of inner parka allows for easy sitting. The canvas is 250grams (10 oz. per square yard) and the lining is 220grams (8.8oz). Our parkas also feature a full zippered front closure with top and bottom button down straps and storm flap, side pockets with 2-way zipper, allowing access to cell phone, keys, wallet, etc, inner left jacket pocket with storm flap, and 2 outside patch pockets with flap and snap with two-way access from top or side. Sleeves feature 4” inside knitted storm cuff with nylon lining to prevent build up from snow and a left sleeve storage pocket with flap and snap for pencils/pens or cell phone. An extended 3.5” tab on neck of hood allows for extra room for hard hats. Packaged 10/Case.

Wilkuro Toe-Caps

Accept no imitations, look for the original Wilkuro® brand safety toes. Relied upon by Fortune 500 companies, Wilkuro’s slip resistant safety overshoes have been continuously quality tested since 1985. Proudly made in North America.

Wilkuro Safety Toes provides excellent occasional toe protection at an affordable price. The Wilkuro Safety Toe is an alternative to steel toe shoes for:

- casual or temporary workers
- salespeople
- executives
- or any other person who enters an area where toe protection is required.

Where there is a potential for toe injury the desire for comfort and convenience of wearing regular footwear Wilkuro Safety Toes are the answer.

Wilkuro Safety Toes are a time-tested and proven steel toe shoe solution, which is ideal in any environment where there is risk of accidental toe damage or where steel toe shoe cap is required.

Designed to fit comfortably over soft-toed shoes, including runners and even low-heeled dress shoes*, Wilkuro Safety Toes are an excellent alternative to steel toe safety shoes.

Order them for casual or temporary workers, visitors to a plant, sales persons, executives or clerical staff.

Unlike standard steel-toed safety shoes, they can be passed from person to person without hygiene concerns.

The switch to PVC ultimately replaces the use of 100 per cent vulcanized rubber boots. Wilkuro has continuously and comprehensively tested its products to meet and exceed required international safety standards. Market and quality testing has shown the new PVC overshoe to provide a stronger, more durable and slip-resistant Wilkuro Safety Toe, which is also acid, oil and animal fat resistant.

According to Operations Manager, George Kuropas, "PVC is capable of coming into contact with a variety of chemicals without undergoing any significant changes in composition or properties. It remains strong and durable, even under changing temperatures and conditions. This resilience will allow Wilkuro Safety Toes to consistently function for extended periods of time." He added, "Out of 135 standard chemicals tested, the Wilkuro PVC overshoe consistently outperformed comparable rubber overshoes. PVC achieved excellent or good scores for chemical resistance in 92 instances compared to 48 instances for rubber—a 192 per cent improvement."
